DIRECTOR OF CENTRAL INTELLIGENCE
Committee on Imagery Requirements and Exploitation
Washington, DC 20505

DCI/ICS/85-4637
30 October 1985

NOTE FOR: Tom Seppelin, DMA
[redacted] NSA

SUBJECT: Possible Candidates for COMIREX Staff Vacancy

1. Would like to invite you and your agency to consider detailing one of your promising officers to fill a computer systems analyst vacancy in our System Integration Division. This would be a fully reimbursable assignment lasting two years with an option for a third by mutual agreement. The grade of the position is GS-14/0-5. The work location would be [redacted] assuming most of the COMIREX Staff will move there early next year. A CIA staff top secret clearance would be required which entails a full background investigation plus a polygraph examination. The work would involve guiding the continuing development of the COMIREX Automated Management System (CAMS) and would require some experience with large, complex computer systems. Additional details are available from either [redacted]
[redacted]

2. Please give this some thought, discuss it with whomever you like, and get back to me. Thanks.
